

The Training and Employment Funds (TEF) is a joint effort of 1199SEIU and contributing employers. Our mission is to develop high quality training, placement and labor-management initiatives. Through our efforts we aim to support the potential of healthcare workers to grow educationally and contribute to building an efficient and caring healthcare industry. We also aim to develop the ability of union and management to problem-solve difficult issues and create innovative solutions. Through our work we intend to create a world-class healthcare workforce and service delivery system.
