

LABOR MANAGEMENT PROJECT

An employer and 1199SEIU partnership

A Day of Learning for 1199SEIU United Healthcare Workers East Nurses

October 11th, 2018

Mark your calendar for the ninth annual Registered Nurse Labor Management Initiative (RNLMi) symposium, “Nurses, Leading with Hearts and Minds,” a day of sharing knowledge about industry trends and how they are affecting your job. The symposium will be held on Tuesday, November 27, 2018, at the Marriott Brooklyn Bridge. This year the RNLMi is thrilled to have an innovative nurse leader as our keynote, David Zambrana, PhD, DNP, MBA, RN, Senior Vice President and Chief Executive Officer of Jackson Memorial Hospital.

David is an inspirational CEO who began his career as a bedside nurse. He is highly committed to advancing labor-management partnerships and exploring how we can best deliver patient care in the new world of healthcare. One of his passions is recruitment and retention of new nurses, and he is always looking for new models that can be adapted from other workforces. David will be joined by other inspirational leaders for a lively discussion on what it means to be a leader.

The afternoon breakout sessions will provide deep dives into Value Based Payment, successful collaborations between healthcare and non-healthcare organizations, and more on leading for the future.

As in the past, the symposium will also include a poster session focused on research and innovation in healthcare. Each 1199SEIU United Healthcare Workers East healthcare system will have an opportunity to submit two posters for presentation and publication in the Symposium Journal.
